Work Experience

2015-2016

Graphic Designer

Southern Utah University Festival of Excellence

As the designer on the committee for the Festival of Excellence, I used XML and XSLTs to import and sort the information into InDesign to create the 100 page program to accompany the festival.

Summer 2015

Interaction Design Internship

Overstock.com

During my internship, I was involved in all areas of the design process, from ideation through execution. I developed web ad campaigns, on-site pages, Powerpoint presentations, and logos.

2014-2015

Graphic Designer

Southern Utah University Edge Program

As the sole designer for this growing program on campus, I worked on developing a brand that both fits with the existing design of the school but sets the program apart. During my time I designed a magazine brochure, event invitations, posters, and diagrams.

2014-2015

Freelance Design

Merryweather Studios

During my time working for Merryweather Studios, I designed a trade show booth display, branded a Hawaiian farm, and worked on illustrations.

2012-present

Freelance Design

On my own I have worked with clients to design logos, patches, and clothing for a local competitive soccer club, boy scout organizations, and businesses.

Education

2012-2016

Southern Utah University

Bachelor of Fine Arts in Graphic Design

2010-2012

Salt Lake Community College

Concurrent enrollment

Software

Illustrator
Photoshop
Indesign
